## EXPERIENCE

### Sagitec Solutions

Software Development Engineer

Pune, India

Oct 2024 - Present

- Designed and developed **scalable, high-performance modules** for the TCRS Pension Administration System using **ASP.NET Core Web API and C#**, supporting **250,000+ users**.
- Architected and consumed **RESTful APIs** for seamless integration across services, enabling **API-driven communication** and improving system interoperability, in a **BPM-driven system**.
- Collaborated with cross-functional teams in a **distributed environment** to troubleshoot production issues, optimize performance, and deliver **optimized solutions aligned with business requirements**.

### Incedo Inc.

Software Development Engineer

Gurugram, India

Jul 2023 - Sep 2024

- Built a **Knowledge Management Portal** using **React.js and ASP.NET Core Web API**, improving component modularity, state management, and API integration, reducing user search time by **30%**.
- Designed and maintained **10+ scalable RESTful APIs** using **.NET**, supporting secure file transfer, messaging workflows, and high-volume data processing; leveraged **Swagger** for complete API documentation and efficient testing.
- Managed **CI/CD pipelines** and deployments on Linux servers, integrating **Azure Active Directory** for secure authentication and access control.

### Ericsson India Global Services Pvt. Ltd.

Research and Development Intern

Gurugram, India

Jan 2023 - Jul 2023

- Enhanced dimensioning infrastructure by integrating an **SMSC Simulator**, achieving a **15% increase** in message delivery, an **8% reduction** in dimensioning time, and a **5% efficiency boost** per test case.
- Improved the Java codebase by **integrating a statistics library**, while gaining hands-on experience with Linux, Shell Scripting, Java, and Git.

## TECHNICAL SKILLS

**Languages:** C++, C#, HTML, CSS, JavaScript, SQL, Git

**Technologies:** ASP.NET Core, ASP.NET Core Web API, MS SQL Server, React.js, Linux, GitHub, Swagger, Azure DevOps

**Cloud:** Azure Devops, CI/CD Pipelines, Deployment Automation

**Concepts:** Agile, Scalable Systems, Microservices Architecture, RESTful APIs, Distributed Systems

## PROJECTS

### Shopify

- Built a fully responsive, full-stack **e-commerce application** using Next.js, providing an exceptional online shopping experience for users.
- Leveraged **Next.js** to ensure high performance and efficient server-side rendering, **Sanity CMS** for streamlined content management, and **Stripe** for secure, real-time payments.
- Developed a streamlined **cart** feature for easy addition and ordering, coupled with a user-friendly **carousel** for effortless product browsing.

### StreamScape

- Engineered an intuitive **movie recommendation application** with a visually appealing UI/UX using **Shadcn**, offering an immersive streaming experience for users.
- Utilized **Next.js 14** for optimized API call fetching, integrated **TMDB APIs** to access the latest movie data, **Tailwind CSS** for elegant UI design.
- Incorporated **OpenAI service** with **Azure Functions** for AI-powered movie suggestions, optimized API calls with fast **data caching**, and implemented **dark mode** toggling based on user preference.

## ACHIEVEMENTS

- Received the **Star Award at Sagitec Solutions** for demonstrating core values by adapting quickly to new technologies, delivering high-quality results, and fostering a positive and ethical work environment.
- Won the **Capstone Project at Incedo Inc.**, leading a team of 5 to develop **InvestEase**, an investment portal for portfolio tracking, real-time reporting, and secure transactions.

## EDUCATION

### Vellore Institute Of Technology

Bachelor of Technology in Computer Science; GPA: 8.54

Vellore, India

Jul 2019 - Aug 2023
